

What is claimed is:

1. A knitted fabric for producing cotton denim jeans, the knitted fabric produced by the steps of:

5 obtaining raw yarn by dyeing or immersing 100% cotton yarn with or into natural indigo sol-type dyestuffs of blue or black;

directly inserting rubber yarn which has spandex features into the raw yarn; and

10 simultaneously knitting the rubber-yarn inserted raw yarn by a ring-type knitting machine, to thus provide the knitted fabric for producing indigo-dyed cotton denim jeans which possesses spandex features, and peculiar functions of preventing creases and friction with the skin.
